

The SpaceCom Entrepreneur Summit

Where the ideas meet the money!

Entrepreneurs, venture capitalists, angel and private equity investors, and industry experts connect at SpaceCom.

The SpaceCom Entrepreneur Summit brings together early-stage startups and investors for a full-day of workshops and activities to stimulate investment and growth in the commercial space sector.

Startup entrepreneurs will refine their business plan, give a pitch, and identify investment sources. Investors and accelerators will participate as mentors and judges to select the most promising of the pitches to be showcased during the SpaceCom general session, and on the trade show floor.

The SpaceCom audience will participate in selecting the top entrepreneur who will receive the grand prize. The workshop portion of the Summit will be managed and facilitated by Stephan Reckie, Managing Member of Angelus Funding.

The SpaceCom Entrepreneur Summit will be developed in cooperation with representatives of NASA, Station Houston, Houston Exponential, New York Space Alliance, Silicon Valley Space Center, and other organizations as may be appropriate.

Elements of the SpaceCom Entrepreneur Summit include:

- Full day of workshops on November 27
- Show floor pavilion, November 27 – 28
- Plenary session finalists 'shark tank' and award presentation on November 28

Program Overview

- Experts will pre-screen 50 companies to participate
- The top five startups will be showcased during the general session
- Participating companies will receive complimentary space on exhibit floor and possible travel stipends
- Selections will include a diverse and international scope across five commercial industries
- Pavilion access is complimentary to conference registrants
- Participants in the program include investment bankers, angel and private equity investors, and venture capitalists from all five commercial industries

Awards (top three)
